1. **EXAM 1: Wednesday March 4**

2. You may bring 1 sheet of paper with formulas or definitions written on one side of the page only. Your notes must be in your own handwriting, not typed.

3. The exam covers everything we have covered this semester up to and including consistency.

The corresponding sections in your book are

- Review material from the first week of class (topics from chapters 2 and 3)
- Chapter 3, Sections 3.7-3.12
- Chapter 5, Sections 5.1-5.4 and 5.7

The exam will focus on the topics covered in chapters 3 and 5.

4. The best practice for the exam is to review your homework and class examples. For homework problems, please take a look at the solutions posted on the web to make sure you are doing the problems correctly.

5. I will also post practice exam problems on the web. We will go over these in class on Monday March 2.
